

# RELIABLE SOLAR LED LIGHTING SOLUTIONS

# AREA LIGHTING SYSTEMS

## SLL SERIES & RMS SERIES

- Fast and easy installation; no trenching or cabling required
- Positions your community or business as an innovative leader in reducing carbon emissions and promoting environmental sustainability
- Solar arrays and battery banks are sized based on site conditions for reliable performance
- Industry leading warranty
- Minimal permitting requirements; no public utility connection required
- ECM Connect™ internet connectivity allows for 24/7 remote control and monitoring
- Systems can power external bollard lights and other electrical loads in addition to overhead LED fixtures

# TRANSIT LIGHTING SYSTEMS

## PV-SHELTER RMS SERIES

- Safe, UL listed, environmentally friendly lighting
- Designed for performance, quality, reliability, and safety
- Positions your community or business as an innovative leader in reducing carbon emissions and promoting environmental sustainability
- Industry leading warranty
- Full suite of products designed for all shelter architectures including flat, radius, or peaked roof designs
- Solar arrays and battery banks are sized based on site conditions for reliable performance
- Several luminaire options for shelter safety and Ad-Box lighting

## PV-STOP SERIES

- Stand-alone pole mounted design for bus stops with or without a bus shelter
- Fast and easy installation; no trenching or cabling required
- On demand (button activated) or automatic operation
- Optional features including "Bright-Up" and "Driver Signal"
- Custom branding/logos

### RELIABLE SYSTEMS

Our solar powered LED lighting systems are engineered to deliver reliable illumination in extreme environments, 365 days of the year.

All Urban Solar products are UL Listed and made in America at an ISO accredited manufacturing facility.

### CUSTOM ENGINEERING & DESIGN SOLUTIONS

Urban Solar engineers provide design services including lighting layouts, solar system sizing, and lighting system specifications.

We will work with you to design a solution that exceeds your expectations.

### INDUSTRY LEADING 20-YEAR WARRANTY

Urban Solar provides a 20-year system warranty, and batteries have a 5 to 10-year limited warranty. Contact us for details.
